## **\*\*Mr. Ryan: HS Science**

**2 notebooks:** One for class notes and one for homework. All homework will be kept in a notebook and not be torn out. Students will have a history of what to expect on tests.

**1 Lab notebook:** for lab/lab assignments

**3 Ring binder:** This binder is to be specific to the students' science course. There will be many handouts and organization is going to be paramount.

**Colored Pens or Pencils or Markers:** (multiple colors to help organize thoughts as well as identify areas needing further studies. **However, all labs must be completed in black ink.**

**Scientific calculator or Graphing calculator:** Students will need a calculator that is able to calculate using scientific notations. With the advancement of calculator apps on phones, certain apps are ok and I will go over them with students on the first day of school. Note any use of apps on phones will be closely monitored.

**Translator:** International students in need of translators will have to abide by the school policy of translators. Apps will not be permissible unless approved by Cornerstone Christian School.

**A good attitude:** I am excited about this year and can't wait to introduce many new practical labs and approaches to the material covered. It is my wish for students to be excited about science this year. I look forward to a year of knowledge and fun. See you soon.
